ACKNOWLEDGEMENTS

We extend our thanks and appreciation to the following people who so kindly gave their time and efforts to make the Schumm history and genealogy possible:

In 1928, thanks to Lorenz G. Schumm, Edgar G. Schumm, Clara M. Schumm, William J. Schumm, Paul T. Schumm, Hugo J. Schumm, and the Rev. H. Josenhans, Ruppertshofen, for compiling the Schumm history and genealogy. This early history has been reprinted and is the first section of the book, pages 1-14.

In 1988, thanks to Milton Schumm and his wife Betty, Betty Schumm, Velma Schumm, Nancy Schumm, Mildred Franz, and Imogene Schumm, for compiling The John George Schumm Family History for the 150th Anniversary of the Schumm settlement in Van Wert County.

Special recognition and thank you to the following women who served as secretary for the reunion since the last updated book in 1988 and who conscientiously recorded family updates. They are Betty Schumm, Jane Black, Brenda Matthews, and Tina Heitkamp.

In 2010, thanks to Karen Miller Bennett, Sharon Dietrich, and Florence Schumm Miller for updating the Schumm history and genealogy. Thanks to Vince and Helen Schumm Muntzinger and Jerry and Toby Schumm Oswald for sharing their Ruppertshofen photos with us. And thanks to Florence Schumm Miller for providing the Schumm Parochial School photos, to Sharon Dietrich for taking the farm photos, and to anyone else who provided photos that were used in this book.

Finally, thank you, the Schumm descendants and relatives, for sending the latest information about your families. It has been a joy to correspond with so many relatives!

PREFACE

In 2006, the Schumm Reunion committee decided it was time to update the Schumm history and genealogy. Sharon Dietrich, Schumm Reunion secretary, contacted Karen Miller Bennett, CG, for help with the project. Karen is a certified genealogist and has been researching her family history for some time. It was determined that the first step should be to digitize and record all the genealogy information from the 1988 Schumm History onto a genealogy computer program. We considered two features to be very important for the updated Schumm genealogy--birth and death dates as well as an index. Birth and death dates place in individual in time and help differentiate between individuals with the same name. An index makes it easy to locate an individual in the book. Karen recommended using the Roots Magic genealogy program because it is user friendly and the program will generate an index.

Work on the book began over four years ago. Karen's mother, Florence Schumm Miller, accepted the task of data entry and entered names and dates into the Roots Magic program. Florence and Sharon worked to obtain updated family information and at the same time, whenever possible, they tried to obtain birth, death, and marriage dates to go along with the names. This was a daunting task as Florence entered over 8900 names into the Roots Magic program. Some information was obtained from the Schumm Cemetery readings (*Van Wert County Cemetery Inscriptions, Vol V, Liberty, Harrison & Willshire Townships*, Van Wert County Chapter OGS, 1992), from the records of Zion Lutheran Church, Schumm, and from other sources such as obituaries, marriage records, birth and death records, etc. Sharon digitized the Schumm History that was compiled in 1928 by William J. Schumm into a Word document and obtained photos for the book. Karen updated some genealogical and historical information and compiled biographies of the six Schumm immigrants, pages 29-44. When the family update deadline of 30 April 2010 had past, Florence and Sharon gave their digitized files to Karen. Florence, Karen, and Sharon spent countless hours editing the genealogical data. Karen then compiled and edited the historical information and photos, organized and made the historical and genealogical information print-ready, and designed the book covers.

The files for the book were taken to the printer in late June and a proof copy was printed, but editing was still done until the final files were delivered to the printer in mid-July. The files are also available on CD, in PDF format.

We have attempted to make this book as accurate as possible and we apologize for any errors. Please inform us of any discrepancies or errors.

We would like to continue to keep the database up to date, so please inform the Schumm Reunion secretary of family updates and address changes as they occur. Additional books or CDs may also be ordered from the secretary at:

HOW TO USE THIS BOOK

- The first section of the book, the historical section, pages 1-14, was compiled in 1928. Information about the Schumm area was compiled by Sharon Dietrich, pages 17-26. Biographies of the six Schumm immigrants were compiled by Karen Miller Bennett, pages 29-44.
- The ancestry of John George Schumm is on pages 27-28.
- Two generations of the descendants of John George Schumm are in the narrative section, pages 29-44.
- The genealogy section of the book, pages 45-195, consists of five descendant lists. A descendant list is an indented list of a root person and his or her descendants (children, grandchildren, etc). Each person is printed on a single line and each generation is indented to the right of the previous generation.
- The Descendant Lists Section, pages 45-195, gives the descendants of each of John George Schumm's five children that immigrated to America with him in 1833. Each of the immigrant children has their own Descendant List, listed in their birth order—Katherina, Martin, Friedrich, Jacob, and Ludwig.
- Reading the Descendant Lists:
 - There are 5 Descendant Lists, one for each of John George Schumm's immigrant children
 - The root person in each section is #1 and is on the far left of the page
 - #1's spouse is listed directly below #1 and is indicated with a +
 - Their children are indented below them and are generation #2; their spouse is listed below their name, indicated with a +, and their children are indented below them and are generation #3
 - Subsequent generations are listed in the same manner
 - The next descendant list begins with a new root person as #1
- Birth and/or death dates follow an individual's name, if that information was given to us.
- Women are listed in the genealogies and in the index by their maiden name.
- Although we recorded marriage dates in the database, they do not appear in the descendant list format that we used. Marriage dates do appear in the narrative genealogy section, pages 27-44.
- An *umlaut* [Ü/ü] was used to replace *ue* in the narrative portion of the book, the same designation that was used in Gothic Script, the old German writing. e.g. Württemberg

ABOUT THE INDEX

- Given names are listed under their surname.
- The index is for names only—no places or events.
- The index shows the birth date of an individual, if that information was given to us.
- The first group of names in the index consists of given names for which we did not know the surname.
- Names in the narrative section, pages 1-44, are not listed in the index.
